## Issues to Discuss:

1

To make this program work, and encourage participation by both First Mates and New Member Families, I believe the new members must need to put in volunteer hours (I suggest 10-15) and First Mates must be compensated for at least a part of their time. Is a 5-hour "payment" adequate for the amount of time required? We can decide if between 5, 8, or even 10 hours.

2

I believe there should be a 1/2 hour meeting, possible before a board meeting, for the prospective First Mates to get the correct information to impart, especially about the current Lesson Programs, Racing Program, and whatever topics they will be expected to impart information about and may not know themselves.
